

## Reference letter for Batiste Bieler

Date: 31.07.2012

To Whom It May Concern,

Batiste Bieler was employed at Opera Software in the period between January 15, 2009 and September 30, 2012. Batiste worked as a Developer in the Product Development, Services department.

Batiste has worked on several projects during this time:

- portal.opera.com – Batiste was one of the first developers on this project, creating the site from scratch. His work was varied and included a Python/Django backend as well as front-end development in CSS/Javascript.
- Opera Mini "Smart Page" CMS – Batiste developed a CMS using Django's Admin application for this project, which involved co-operation with other developers and project managers in Sweden and Poland.
- addons.opera.com – After completion of the Smart Page CMS, Batiste joined the established addons.opera.com project and implemented changes and fixes.

During his time at Opera, Batiste proved to be polite, punctual and sociable.

Please feel free to contact me directly should you have any further questions.

Regards,

Michael Link
